### **DETAILED ACTION**

Claims 1-69 are pending in the application.

#### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-44, 49, 50, 57 and 58, drawn to compounds, compositions and method of use of the compounds of formula (I), classified in classes 540, 544, 546, 548, 564, various subclasses within.
- II. Claims 45-48, 51-54, 59, 60 and 63-69, drawn to complex compositions and method of use of the complex compositions, classified in class 514, various subclasses within.
- III. Claim 55, 56, 61 and 62, drawn to a kit, classified in class 206, subclass 570.

The inventions are distinct, each from the other because of the following reasons:

Groups I and II are directed to compounds of formula I and complex composition which includes the compounds of Group I and an additional active ingredient. Groups I and III are directed to the compounds of formula I and a kit used for the dispersal of the compounds of formula I.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions anticipated by the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

**Tentative election of a single species within the elected group is further required.**

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brenda Coleman whose telephone number is 571-272-0665. The examiner can normally be reached on 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mukund Shah can be reached on 571-272-0674. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
